THERMAL THERAPY

After the **age of 25**, the **collagen production** in our skin **drops by 1% every year**.

COLLAGEN DECREASES AS WE AGE

THERMAL THERAPY increases our skin temperature in order to stimulate collagen regeneration for **firmer- looking skin**.

5 ADVANCED TECHNOLOGIES IN 1

A breakthrough beauty device

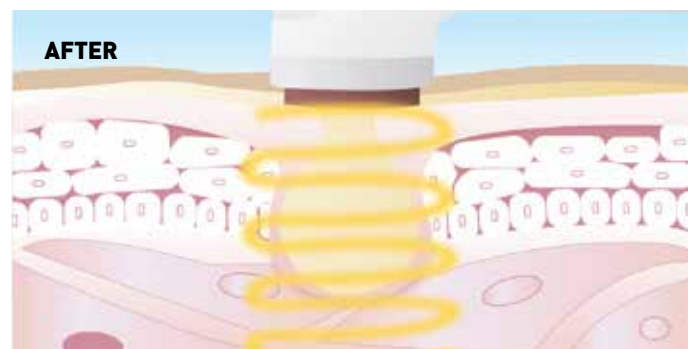

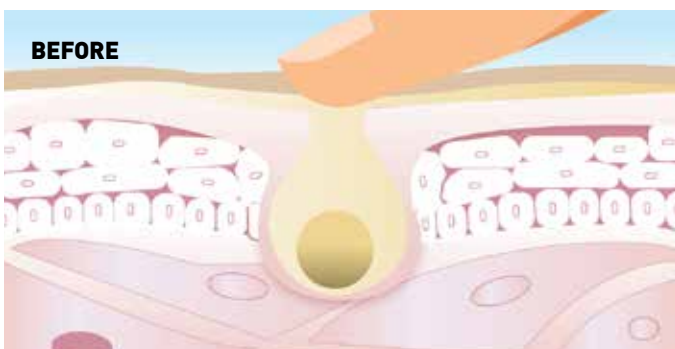

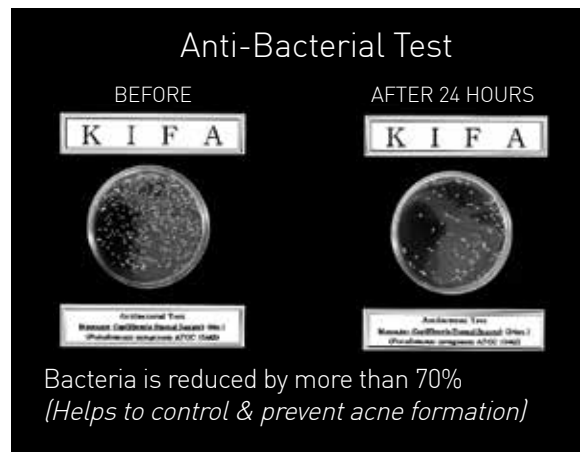

FAR INFRARED RAY THERAPY

Our face cleansing routine can **only clean our skin surface.**

FAR INFRARED RAY THERAPY

penetrates up to 4cm deep within the skin surface to remove impurities (dirt, sebum & pollutants) that are trapped beneath the skin. It also contains **anti-bacterial** properties for **cleaner & brighter skin.**

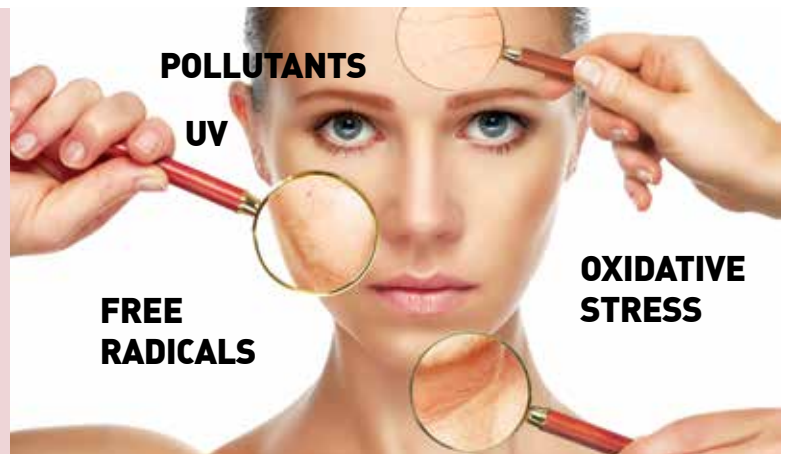

5 ADVANCED TECHNOLOGIES IN 1

A breakthrough beauty device

ANION THERAPY

Our skin is constantly under attack by free radicals which causes skin age more rapidly.

ANION THERAPY produces 1,500 anions per cc to increase tissue oxygenation and slow down the signs of ageing.

Natural Water Fall, Beach, Forest **3,000-4,000/cc**

ULTRASOUND THERAPY

Instead of **just applying skin care products on our skin surface.**

ULTRASOUND THERAPY with **1.7 million hertz per second**, it helps to maximise the efficacy of our favourite Elysyle skin care product by increasing skin penetration for **younger-looking skin.**

5 ADVANCED TECHNOLOGIES IN 1

A breakthrough beauty device

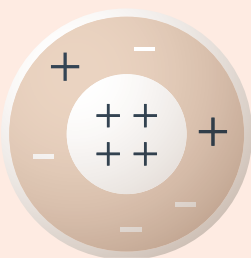

GERMANIUM THERAPY

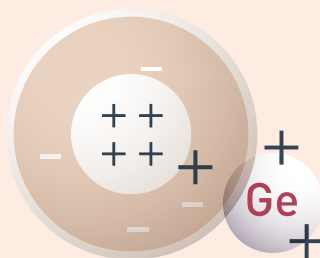

Our urban lifestyle exposes our skin to harmful positive ions, which is generated from mobile phones, electronic equipment & more.

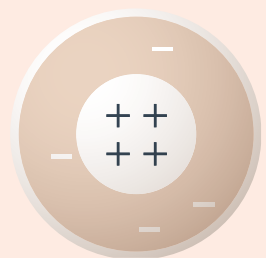

GERMANIUM THERAPY helps to balance the positive and negative ions in the skin which energises skin cells to provide **radiant skin from within.**
